

Honeywell

So serious about your performance?

So are we.

That's why Honeywell's new NX Variable Frequency Drives are designed to make HVAC systems perform better than ever before. We give you the benefits of easy commissioning, startup and installation, so you can give your customers the benefits of:

- Better flexibility—control everything from simple fans, pumps and compressors to elevators, cranes and winders
- Better functionality for a wide range of HVAC and industrial applications
- Better protection with minimum harmonics
- Better flexibility in communications with multiple fieldbus options: LonWorks, ModBus, DeviceNet and ProfiBus

If you're serious about performance, rely on Honeywell's new NX Variable Frequency Drives to raise the bar on building control.

Better Than Ever.
